

Governance Structure

All directors of FOR Cardiff are volunteers and do not receive any remuneration for their position. Where Director positions need to be filled, the recruitment process analyses the sector make-up alongside the skills and abilities of potential directors to support the executive team in delivery of the business plan. Interviews take place with interested parties by the Chair with support from the Executive Director before recommending appointment to the board by an ordinary resolution or by a decision of the directors.

Within the current term of the BID (2016 to 2021) the board is made up of levy-paying businesses who are representative of the sector make-up of the city (as outlined in our Business Plan). The chair and vice Chair are elected at the first meeting of the financial year by the current board members.

Updates relating to the Board and its composition are communicated as required through our E-News, newsletter and at our Annual Review in June each year.
